Introduction

If you've been on the internet for more than a few hours, you've likely seen at least one advertisement teaching you how to make thousands of dollars a minute, working from your underwear, in the comfort of your own home.

These ads are so ridiculously popular that if you're like most people, you start doubting whether it is really possible to **make money online**.

The truth is, it is very possible. It might be hard to make thousands of dollars a minute from the get-go (or at all), but there are certainly ways you can make an extra \$100 a day working from home with ease.

In this report, I am going to share with you different ways in which you can create more income. What I have put down here for you requires your dedication, commitment and time. This is not a get rich quick scheme.

While some of the means mentioned require more work than others, please know that you can mix and match. For example, maybe you can do a few hours of forum moderation at \$10 an hour for \$30, and then make up the extra \$70 doing something else. The key is to have fun and do whatever you enjoy.

If for any reason you are stuck with something don't fail to contact me

I have given an overview of each idea, and then fleshed them all out a little bit so you could get started on whatever you like, immediately.

It is my sincere hope that you get a lot out of this report, and that you take action and start making money online!

Without any further ado, let's get started.

1. BECOME A BLOGGER:

If there's something you're passionate about, you can create a blog where you can talk about it.

This is a fun way to share your passions while learning and teaching about what you're already excited about.

In order to do this well, you would need to be a good writer with the ability to make people interested. You would also need to be able to post fairly regularly to a blog.

Blogs can be monetized in several ways. Just some ways are to have companies pay you to post their advertisements (this is better for blogs with a lot of traffic), or put [Google AdSense](#) on your blog. With this option, Google pays you every time someone clicks on an advertisement.

In order for you to become a Blogger, here are some steps you can take:

Choose a company to blog with. Two of the most popular ones are [Blogger](#) or [WordPress](#). I recommend WordPress though

- ✓ Decide if you want a free account or if you would like to host the blog on your own domain (if you bought a domain, your blog could look like <https://www.waystomakemoneyonline.com.ng/>, or a free account would look like www.yourpassion.wordpress.com).
- ✓ Most people opt to buy a domain so that their blog appears more professional. If you choose to do this, you'll need to sign up with a hosting company (I recommend [BlueHost](#) – their plans are as low as \$2.95 a month with a free domain), and then have your domain routed to the hosting company.
- ✓ This may sound difficult but it's actually very easy, and [BlueHost's](#) customer support can help you with any questions.
- ✓ After your blog is set up, decorate it however you would like (WordPress calls the blog skins "themes", and Blogger calls them "templates")
- ✓ Post news, lessons, stories, or anything relevant to your blog.

- ✓ Add content as frequently as possible so that you build up a regular readership base.
- ✓ Start advertising your site on social networks, amongst friends, or via other traffic methods.

How much can I make out of blogging?

It can take some time to establish a blog, but the profit potentials can be quite large. Some people report making in the millions of dollars from a blog. Your earnings will vary based on traffic you get to the blog, how interesting your content is, how often you post, and the types of advertisements you put on your blog.

2. SELL A SERVICE ON FIVERR

[Fiverr](#) is a website where people sell lots of services at \$5 a pop. People sell all sorts of things there – from advice giving to article writing and many things in between.

Browse through the site to get an idea of what people are offering. You can either offer the same things, create new “gigs”, or both.

For every “gig” you sell, you make \$4 and Fiverr keeps \$1. Some of the more popular gigs can easily earn you \$100 or more a day.

In order for you to make money with Fiverr, here’s what to do:

- ✓ Sign up for an account with [Fiverr](#).
- ✓ Click on “Start Selling”
- ✓ Click on “Create First Gig”
- ✓ Follow the instructions to create whatever gig you’d like
- ✓ Wait for customers to accept your gig and do a great, timely job once they come.

3. START AN ONLINE VIRTUAL STORE:

You can set up a store by using either dropshipping as we talked about earlier, or by selling something that you create (some examples are homemade candles, scrapbooks, or quilts).

You can either mass-market items, or you can offer your services and have people pay you per order, and then only start acquiring the product once you get paid (so for example once someone gives you money you start knitting a quilt).

In order for you to create an online virtual store, here are some steps you can take:

- ✓ Design a website for yourself and set up a virtual store along with payment methods. You can also register as a seller on eBay or Amazon.
- ✓ If you intend on dropshipping, identify wholesale dealers. You can run a
- ✓ Google or use [this site](#). Otherwise, identify people who supply the materials you need for your own product.
- ✓ Start building your customer base. Advertise in websites or forums, social networks, amongst friends, or via other traffic methods.
- ✓ Enjoy the profit margin

How much money can I make out of an online virtual store?

Your profit will be the difference between the price charged by the wholesaler and the price you charge the customer. It's hard to give an estimate on this since different products have considerably different prices.

4. CREATE AN AFFILIATE WEBSITE:

If you don't want to sell products - either with dropshipping or having your own products - then you could also consider becoming an affiliate.

As an affiliate, you simply refer people to other sites and earn a commission every time a sale is made.

You can become an affiliate for major stores like Target, Wal-Mart, or Amazon, as well as very specific niche sites.

In order for you to have an affiliate website, here are some steps you can take:

- ✓ Design a website for yourself and set up a virtual store along with payment methods. You can also register as a seller on eBay or Amazon. Alternatively, you could simply give reviews of products and then link people directly to the pages of the products that you are mentioning.
- ✓ Make sure that you're signed up on some affiliate sites. Some of the more popular ones include [Clickbank](#) and [Commission Junction](#). Those sites are both directories and can give you more information about hundreds of merchants with affiliate programs.
- ✓ Start building your customer base. Advertise in websites or forums, social networks, amongst friends, or via other traffic methods. Enjoy the profit margin

How much money can I make out of an online virtual store?

Some affiliate programs will pay per lead - anywhere from \$.20 to \$100 – while others charge a percentage of sales - while others pay a flat amount per sale.

This is highly different for each type of program.

Got a passion or talent for something? Interested in converting it into money? Then listed below are some of the ideas that might suit you:

5. STOCK PHOTOGRAPHY:

If you are interested in photography, then you can take some interesting pictures and sell them as Stock Photos.

Stock Photography is simply the act of licensing your photos so that people can use them as they wish. This is a fun way to make money on a passion that you already have.

In order for you to make money with stock photography, here are some steps you can take:

[Here](#) is an excellent website that explains how to sell stock photography in an extremely detailed and concise way.

Once you start taking the photos, build yourself up a portfolio.

How much can I make out of Stock Photography?

You can make anything from few cents to thousands of dollars depending on the demand for your stock images. You will generally be paid on a royalty basis, getting paid whenever someone buys your photos. You will earn more money if a corporation uses your picture versus just an individual using a picture for fun on a website.

6. MAKE YOUR OWN PRODUCT AND START SELLING IT ONLINE:

If you have a talent for something like knitting your own sweater, creating your own painting, creating some decorative pieces, etc., you can start selling it online and make money out of it.

Where do I sell my products?

- ✓ Get registered in sites such as [eBay](#), [Amazon](#), and [etsy](#).
- ✓ List your products
- ✓ Get your product sold and start making money

How much money can I make?

It depends on the type of product and your pricing structure.

7. MAKE MONEY WITH MIS-SPELLINGS:

There are a lot of people who mis-spell domain names when they're looking for things, and get redirected to empty pages.

You can buy the mis-spelled domains and redirect them to the right one (including your affiliate link - see #47 for more info). You will get

credited with affiliate commissions for doing nothing but capitalizing on the mis-spellings.

In order for you to make money with mis-spellings, here are some steps you can take:

- ✓ Look for affiliate programs to join.
- ✓ Read the affiliate Terms Of Service and make sure they're OK with you finding mis-spellings (most are but some aren't).
- ✓ Type in potential domains into Namecheap.com and see what mis-spellings you can find.
- ✓ Buy any domains you find and have them redirect to your affiliate link.

How much money can I make?

This is hit or miss. I have one mis-spelled domain that silently made about

\$2,000 one year (the domain was missing a letter from the brand name). You can leverage by buying a lot of mis-spelled domains and make a nice passive income, especially considering your investment is only \$8.81 (google "namecheap coupon code" when buying your domain if you buy it on [Namecheap](https://Namecheap.com).)

8. SHOOT AN INTERESTING VIDEO AND START SELLING IT ONLINE:

If you can shoot an interesting video, then you can sell it online and make money.

Your video can be anything from an interesting event, video tutorial, demo video, and so forth.

In order for you to make money with stock photography, here are some steps you can take:

Make sure you have a good camera with quality lenses as well as a microphone, recording and mixing equipment, etc.

Create your video.

You can either create a website, or you can sell directly to sites like [this one](#).

How much can I make out of Stock Photography?

If you create videos on demand for people, you could ask for a certain amount of money per minute, per hour, or per video. This can be very lucrative after you build yourself up a portfolio.

9. INVEST IN BUYING VALUABLE WEBSITES:

You can make a lot of money by identifying small, valuable websites, and then buying them.

If you can make even a few tweaks to improve profit and then hold on to the sites for a little bit of time, you can flip the sites and make more money than when you started.

Not only can this be lucrative, but it can be really fun to find out about new niches and learn new things.

In order for you to make money with buying and selling websites, here are some steps you can take:

You can buy or sell websites in sites www.WebsiteBroker.com or [Flippa](#).

You can also find sites by browsing the net and contacting website owners directly.

Make sure to protect yourself by giving owners noncompete agreements and getting all your paperwork in order.

Tweak the sites for maximum profit

Keep records of sales

Sell the site for a better price

How much money can I make?

It depends on how valuable the site is and the profit margin. You can make anywhere from \$50 to the thousands of dollars, depending on how well your tweaks go.

Are you an expert in Photoshop? Do you know all the tricks? If so, some of the ideas below might suit you:

10. DESIGN AND SELL T-SHIRTS:

Create impressive images, logos, or compelling text via Photoshop. Get your creations printed on tee shirts and start selling them online. You can also make custom shirts for people. For example, some people might want their child or spouse's picture on a shirt. You can use Photoshop to do any touch ups, and then sell the shirt for a premium price.

In order for you to make money with designing and selling shirts, here are some steps you can take:

- ✓ You can get registered in any of the online shopping sites like Amazon.com, eBay.com etc to find customers.
- ✓ Tell your friends and family about your new venture.
- ✓ Design a website. Advertise in websites or forums, social networks, amongst friends, or via other traffic methods.
- ✓ **How much money can I make out of it?**
- ✓ You can sell t shirts from \$10 and upwards.

11. DESIGN BANNERS:

If you're an expert in Photoshop or other image creation software, you can design website banners for different companies and websites.

In order for you to make money with designing banners, here are some steps you can take:

- ✓ Start your own website and describe the type of services you provide.

- ✓ Advertise in websites or forums, social networks, amongst friends, or via other traffic methods.
- ✓ Get registered in sites which provide banner services to customers, such as [Elance.com](#), [Guru.com](#), and [Odesk.com](#)
- ✓ Look for Photoshop jobs in freelancing sites
- ✓ Provide quality designs and start making money

How much money can I make?

Most companies will pay you a flat fee. You can charge anywhere from \$10 to the mid-hundreds, depending on the quality of your services and your reputation. Other companies will pay you based on how many times your advertisement is clicked, which is much more rare.

12. DESIGN COMPANY LOGOS:

Every company needs a logo to establish their brand strongly. You can design these logos and collect some pretty great profits.

In order for you to make money with designing logos, here are some steps you can take:

- ✓ Start your own website and describe the type of services you provide.
- ✓ Advertise in websites or forums, social networks, amongst friends, or via other traffic methods.
- ✓ Get registered in sites which provide banner services to customers, such as [Elance.com](#), [Guru.com](#), and [Odesk.com](#)
- ✓ Look for Photoshop jobs in freelancing sites
- ✓ Provide quality designs and start making money

How much money can I make?

Like with banners, this is highly dependent on your reputation in the field. You can charge anywhere from \$10 to the hundreds of dollars.

You don't need any skill in graphic design but this [Graphics Design Tools](#) to become a guru and start making money online.

13. DESIGN CARTOONS FOR WEBSITES:

Some website owners like to have different cartoons on their website - either in comic strip ads to illustrate a point, or just throughout their websites.

You can also design cartoons for writers who want to illustrate their points.

In order for you to make money with designing cartoons, here are some steps you can take:

- ✓ Start your own website and describe the type of services you provide.
- ✓ Advertise in websites or forums, social networks, amongst friends, or via other traffic methods.
- ✓ Get registered in sites which provide cartoon services to customers, such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com)
- ✓ Look out for sites that look like they could use your services and contact them.

How much money can I make?

It varies depending on the number of cartoons you provide and the demand for your cartoons. You can usually get at least \$50 for a few designs, and then work your way up.

14. CREATE TEMPLATES FOR FACEBOOK FAN PAGES:

Many companies need to advertise themselves and Facebook Fan Pages are one phenomenal place to do it. You can either play with the Facebook fan page instructions, or you can grab [Facebook templates](#) to make your job easier.

In order for you to make money with Facebook Fan Pages, here are some steps you can take:

- ✓ Create a Facebook Fan Page for a business in your area.
- ✓ Email them and show them what you've created. Let them know they can buy it if interested.

- ✓ Flip the site.

How much money can I make?

You can reasonably expect \$200 - \$500 per site, and you may also want to charge a monthly maintenance fee.

15. SUBMIT LINKS TO SOCIAL BOOKMARKING SITES ON OTHER'S BEHALF:

Because there are so many websites online, it can be very difficult for webmasters to get their sites noticed and stay competitive.

In order to attract more visitors and build traffic for their site, website owners sometimes decide to submit their websites to Social Bookmarking sites. Instead of doing it themselves, they often opt to hire service providers for a small fee, to submit their website links on various Social Bookmarking sites.

In order to submit links to Social Bookmarking sites on other's behalf, here are some steps you can take:

- ✓ Collect a list of quality Social Bookmarking sites which active members. You can do this by googling "popular social bookmarking sites".
- ✓ Decide on a fee structure and create a way to collect payment.
- ✓ Try to find as many customers as possible. Start advertising your book on social networks, amongst friends, or via other traffic methods.
- ✓ Get the website links submitted on time. Provide clients with reports on the number of sites you submitted and the links you have created for the customer from time to time

How much can I make out with social bookmarking?

You can make earn between \$10 per each set of 100 Social bookmarks, and slowly increase the rate you charge based on your expertise.

16. ARTICLE WRITING:

If you are a good writer, you can earn money by writing articles for people with websites.

Many website owners know that they need to keep their websites current and up to date, but don't have the time to constantly create new content for them. Because of that, they hire people who can write on their behalf.

In order for you to become a content writer, here are some steps you can take:

- ✓ Post a profile on freelancing sites such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com). Describe your interests and your levels of expertise.
- ✓ Look for writing jobs on the same freelancing sites and apply for them.
- ✓ Google "writer job openings".
- ✓ Ask the owners of websites that you already like if they are looking for writers.

How much can I make out of writing?

Content writing jobs pay anywhere from \$1 to \$100+ based on the length of the article and your expertise. If you're already an expert on the topic you're writing about, you can often charge a premium.

Even if you are new to writing, you can make upwards of \$.50 for each 100 words on an article.

17. TRANSLATION:

If you know any other second language, then it will help you make money by opting for translation jobs. This is another easy way to make use of your spare time and convert it into money. Especially if you know any of the languages for which translators are in huge demand.

In order for you to become a Translator, here are some steps you can take:

- ✓ You can get hired for translation jobs through any of the freelancing sites
- ✓ There are many sites which provide translation services exclusively. You can submit your interest and get hired through any of those sites as well
- ✓ Identify the sites which post all the jobs related to translation.
- ✓ Get yourself registered in those sites
- ✓ You can start your own site and make people know about the translation services that you are ready to offer

How much can I get paid for translation jobs?

You can get paid anything from \$0.01 per word depending on the demand for the language. If the number of translators for the language are scarce, then you can charge a good rate per word

18. BECOME A WEBSITE OR DOMAIN BROKER

There are a lot of people interested in buying people's sites. They would like to buy sites so that they can own established websites without having to do the work on their own, or they see profit potential on sites, and so on and so forth.

A lot of people would love to sell their sites, too... but don't know how.

As a website broker, you can connect buyers and sellers to each other and take a percentage of the sale for making the introductions.

In order for you to become a website broker, here are some steps you can take:

Create a website outlining the basics of what you do. As you get buyers and sellers interested, update the website with what buyers are looking for and what sellers have. Don't put seller's site details on your website, otherwise buyers can go around you to bypass your commission. Just put general details.

Start finding people interested in buying or selling their sites. You can find these people by going on existing sites for buying and selling such as [Flippa.com](https://www.flippa.com), [SiteSell.com](https://www.siteSell.com), or [BuySellWebsite.com](https://www.buysellwebsite.com). Even if people are already listed on one website, it doesn't mean they don't want additional help.

Don't give out site details to buyers until you get them to sign paperwork saying that they won't go around you, sign a noncompete, and so forth.

When a deal is made, collect a percentage of the profits.

How much can I make out of being a website broker?

You can make anywhere from \$100 to the millions of dollars, depending on how valuable a site and/or domain is.

19. START A FORUM POSTING WEBSITE:

As stated before, many webmasters want people to post in their forums. A lot of times they will hire just one person, but at other times, they want a lot of people to go in at once, but don't feel like hiring a lot of individual people. If you can pool up 5-10 forum posters yourself, you can provide a "one-stop" service where a webmaster can pay you and you can then go out and pay people individually.

In order for you to start a forum posting website, here are some steps you can take:

Create a website advertising your services.

You can hire forum posters from any of the freelancing sites or by looking on forums where people are interested in working, such as work-at-home mom websites.

How much can I make out of having a forum posting company?

Obviously a lot will depend on what you charge and how much you have to pay your employees, but you can easily make \$100/day by doing this after getting enough clients.

20. BUYING AND SELLING LINKS:

In order to get higher search engine rankings on Google, a lot of people feel that they need to have a lot of backlinks pointing their site. Backlinks are basically links on other people's websites pointing to another site.

When someone links to another person's website, it shows Google that their website is worth linking to, and so Google gives it preference for their search engine placements.

The higher the search engine placement, the more publicity a business gets, so a lot of people try hard to get more links to their websites. Because so many people want links, you can profit on this by acting as an intermediary between people who are willing to sell links and people who are willing to buy them.

In order for you to buy and sell links, here are some steps you can take:

- ✓ You can look for those who want to buy or sell links in forums of sites which talk about links (Example: <http://www.linkadage.com/>)
- ✓ Make yourself aware of the link buying and selling guidelines
- ✓ Market only valuable links (links that have high **Page Rank** on Google)
- ✓ You can also create a website advertising your services.
- ✓ Start advertising your site on social networks, amongst friends, or via other traffic methods.

How much money can I make out of buying and selling links?

It depends on the amount you charge for connecting people. You can also buy links on your own and then charge people for them, in which you can create your own pricing. You can make anywhere from \$1 to \$300 for a link, depending on how valuable the site is.

21. RESELL SSL CERTIFICATES:

An SSL certificate is something that websites often use in order to prove that their website is secure. This certificate is digitally “signed” by a certificate authority that people already trust after they verify the identity of a secure site.

Many website visitors need to know a site is secure before they submit payment or personal information, so webmasters NEED the SSL certificates.

You can become a partner with any company that offers SSL certificates and resell them on their behalf. These companies either will either sell their SSL certificates to you at a discount, and you can resell them, or they will offer you incentives based on the number of sales you make.

In order for you to become a partner to resell SSL certificates, here are some steps you can take:

- ✓ Browse the net and make a list of companies that offer SSL certificates
- ✓ Sign up for partnership account with the company
- ✓ Identify potential customers and make the sales
- ✓ Provide a list of number of sales you made for the month to the company
- ✓ Enjoy the sales incentive

How much revenue can I make by reselling SSL certificates?

If the company with which you have become a partner offer sales incentives, then it depends on the number of certificates you sell and how much that particular company is offering.

If the company with which you have become a partner offer certificates at discounted prices for you, then your profit will be the margin that you keep for yourself.

22. TAKE UP PART-TIME DATA ENTRY JOBS:

A lot of companies have random requests for different things, such as converting hard copy data to electronic data.

If you have fantastic keyboarding skills with great accuracy, then why not make money out it?

In order for you to become a part-time Data Entry operator, here are some steps you can take:

- ✓ Look out for data entry openings in freelancing sites such as [Elance.com](https://www.elance.com),
- ✓ [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com).
- ✓ Start applying for those jobs
- ✓ Get the documents done on time
- ✓ Do the job as accurately as possible
- ✓ Submit back the given job within required deadline
- ✓ Collect testimonials and offer incentives for people to refer their friends.

How much can I make out of Data Entry?

You can make anything between \$1 and \$5 per hour depending on your speed and difficulty of the job.

23. GET HIRED AS VIRTUAL ASSISTANT:

Individuals who run their own business often find it very difficult to manage and organize things by themselves.

By working as a virtual assistant, you can help people schedule meetings, organize day to day activities, and answer phone calls, etc., and so on.

If you are good at research and organizing things, then you can opt to get hired as virtual assistant.

In order for you to become a Virtual Assistant, here are some steps you can take:

- ✓ Look out for virtual assistant openings in freelancing sites such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com)
- ✓ Start applying for those jobs
- ✓ Try to find as many customers as possible. Start advertising on social networks, amongst friends, or via other traffic methods.

How much can I make by acting as a virtual assistant?

You can make anywhere between \$3 to upwards of \$100 per hour depending on your ability and experience.

24. PARTICIPATE IN CONTESTS:

If you have lot of time to spare, then you can start participating in contests offered by various sites.

It's obviously likely that you won't win all of the contests, but the more you participate, the better your odds.

Little things do start earning up and besides money, you can possibly win things like movie tickets, sample products, gift coupons, etc.

Where do I look for contests?

- ✓ Browse through the net and make a list of sites which offer contests
- ✓ Get registered in those sites and check for new contests daily
- ✓ Participate in as many contests as possible
- ✓ Browse through the search engines regularly and look for any new contests

What do I gain by participating in contests?

You can win cash as well as other perks like gift cards, coupons, and trips.

25. EDITING AND PROOFREADING JOBS:

There are times in which articles or reports need to be edited and proofread before they're ready to be published online.

If you are a native speaker of whatever language a client needs a document proofread, or have good command over that language, then you can pick up editing and proofreading jobs.

In order for you to obtain editing and proofreading jobs, here are some steps you can take:

- ✓ Get yourself registered in all the freelancing sites such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com)
- ✓ Get yourself registered to websites which provide editing/proof reading services to their customers
- ✓ Check job postings daily and apply to ones that you are qualified for.
- ✓ Get hired and start earning

How much can I make out of Editing/Proofreading jobs?

Many people view this as a very crucial job and will pay for it. You can get paid per article or by the hour. If you go with the latter route, expect at least

\$5 an hour for it, upwards to about \$20 an hour.

26. EMAIL AND PHONE HANDLING:

This is similar to a virtual assistant position, but doesn't require making appointments or needing any extensive skills. To do email and phone handling, you would mostly do things such as cold calling, answering queries over phone and handling emails.

Business owners generally tend to hire support staff to handle these tasks, as they're often too busy to do them themselves.

This is one of the simple ways to earn additional income along with your regular income.

In order for you to obtain email and phone handling jobs, here are some steps you can take:

Get yourself registered in all the freelancing sites like [Elance.com](#), [Guru.com](#), and [Odesk.com](#)

Check job posts to see what people are looking for and apply for the jobs that demand your skills

How much can I make out of Email/Phone handling jobs?

You can expect anything from \$3 to \$10 per hour depending on your experience and if there are any skills you should know about beforehand (at times - very rarely - you might need to know about complex topics).

27. BROWSE THE NET AND GET PAID:

It might sound a bit hard to believe, but you can get paid to surf the internet.

If you install a company's software, they will often pay you to keep it on while you are surfing the web.

The reason the companies do this is so that they can track your activity and figure out what sites their users go to, as well as figure out how to market.

The downside of this one is that sometimes you'll start finding random advertisements popping up, so do your due diligence and get a popup blocker (can be found for free by running a Google search).

In order for you to browse the net and get paid, here are some steps you can take:

- ✓ Browse through the net and make a list of companies that pay you to surf the net. Here's a [listing from Yahoo](#) that gives a good amount of companies.
- ✓ Download and install their tracking software
- ✓ Browse through the net and start earning

How much do I get paid?

Companies pay you something around \$0.50 for hour you browse and pay you something around \$0.05 or \$0.10 for every referral you provide.

28. CLICK ON ADS AND GET PAID:

Some companies will pay you to click on their advertisements in hopes of you liking the content on the other side.

You can earn money for every ad you click, and this requires no skills at all.

Where do I find such companies?

- ✓ Browse through the net and make a list of companies that pay you to click on their ads (eg. <http://www.advercash.net/>)
- ✓ Make sure the site is a legitimate one before you get registered
- ✓ Get yourself registered in the site
- ✓ Start clicking the ads and start earning

How much do I get paid?

You get paid something like \$0.01 per click, as well as get money for referring other people to the sites. Although you COULD make \$100 a day on this, this one is intended to be one of the methods that you use along with other ones to earn a total of \$100 per day.

29. FORUM POSTING:

One of the easiest ways to make money online, if you have a flair for talking, is by forum posting.

A lot of webmasters have started hiring people to post on their forums so that their forums look busy and popular. They feel that by making their forums look more popular, they will be able to attract more long-term visitors.

When you're posting in forums, all you would have to do is initiate new threads, or respond to existing ones, and keep conversations going. You may do this by posting interesting thoughts, thought-provoking conversation, or teaching people things.

A cool perk of this job is that you get to learn new things. Also, if you post in forums that you're already interested in, you basically get paid to have fun.

In order for you to become a forum poster, here are some steps you can take:

- ✓ Browse through freelancing sites such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), [Odesk.com](https://www.odesk.com), etc.
- ✓ Apply for forum posting jobs on those sites
- ✓ Respond back to the buyer on time if you are called for an interview
- ✓ Agree on the pay per post and the deadline
- ✓ Get the job done within the accepted deadline

How much can I make out of forum posting?

For each forum post you make, the general prices range anywhere from

\$0.10 to \$0.50 per post. If you have time to devote to this during the day and are able to make between 200 to 1000 posts (depending on how much your job is worth), then you can earn \$100 a day. You can also, of course, do whatever you would like per day and then mix and match with another suggestion from our lists.

30. FORUM MODERATOR:

As long as forums exist, forum moderators need to exist.

This is because webmasters need people to block negative comments, make sure things are running smoothly and forum users are getting their questions and comments responded to.

To be a forum moderator, you would need to monitor comments posted by users, delete spam, answer questions from users, and reply

to user messages. You would also encourage threads, add new content to the site, and block comments posted by people who ignore forum rules.

If you have an interest in certain forums, this could be very interesting for you to do.

Just like with forum posting, you also have the potential to learn a lot.

In order for you to become a forum moderator, here are some steps you can take:

- ✓ Post a profile on freelancing sites such as [Elance.com](https://www.elance.com), [Guru.com](https://www.guru.com), and [Odesk.com](https://www.odesk.com). Describe your interests and your levels of expertise.
- ✓ Look for forum moderator jobs on the same freelancing sites, and apply for them.
- ✓ Google forum moderation job openings.
- ✓ If there are forums you're interested in, check with the owner. A lot of people don't post on freelancing sites but rather prefer to hire people who post a lot.

How much can I make out of moderating forums?

Depending on your role and experience, you can make anywhere from \$5 to \$20 an hour. You may want to start lower in order to build up your resume.

Conclusion

I hope you enjoyed this report. We tried to find different ways of making money online for all types of people, and I sincerely hope that some of these resonated with you.

Remember that you can mix and match these methods if you want. Some of them don't make as much money, but because they're fun, they're a nice thing to add to your repertoire. If you need help start an online business, don't hesitate to contact me ASAP. Cheers
